USP Publishes Draft Chapter <795> and Chapter <797> for Comment (Brookfield, WI – September 1, 2021) PharmEcology Services, WM Sustainability Services

On September 1, 2021, USP published for comment its proposed revisions to Chapter <795> Pharmaceutical Compounding – Nonsterile Preparations and to Chapter <797> Pharmaceutical Compounding – Sterile Preparations https://go.usp.org/Proposed_2021_Revisions_795_797. In addition to the revisions, USP has included the scientific rationale for its BUD (beyond-use-dating) proposed revisions and Compounding Expert Committee responses to stakeholder engagement themes for both chapters. Open forums will be held on September 8th, 2021 and January 12th, 2022 for the <795> series and on September 15th, 2021 and January 19th, 2022 for the <797> series. Registration for the forums is available at <https://www.usp.org/events-training/virtual-open-forum-series-proposed-revisions-to-compounding-general-chapters>.
